MIFARE DESFIRE EV2/OSDP USB SMART CARD READER

PRODUCT DESCRIPTION

The Q08M-Desfire is a high-security USB smart card reader specifically designed for reading Mifare Desfire EV2 cards, supporting OSDP (Open Supervised Device Protocol) for secure communication. This reader is ideal for applications requiring advanced security features, such as access control systems in corporate, government, or educational environments.

PRODUCT ADVANTAGES

- **High-Security Support:** Designed to read Mifare Desfire EV2 cards, providing advanced security features for sensitive applications.
- **Secure Communication:** Utilizes OSDP protocol for encrypted and secure data transmission, reducing the risk of interception and tampering.
- **Ease of Use:** Simple plug-and-play setup with USB connectivity, making it easy to integrate into existing systems.
- **Versatile Application:** Suitable for use in high-security environments, such as corporate offices, government buildings, and educational institutions.
- **Durable and Reliable:** Built to withstand frequent use in professional environments, ensuring long-term reliability.

Q-08M-Desfire

 3 Years Warranty

TECHNICAL SPECIFICATIONS

Parameter	Specification
Model	Q08M-Desfire
Supported Frequencies	Mifare Desfire EV2
Interface	USB
Security Features	Enhanced encryption and secure communication via OSDP
Application	Secure access control, identification, and authentication
Compatibility	Plug-and-play with most systems, compatible with standard USB ports
Color	Black
Warranty	3 Years
Country of Origin	Malaysia
Certifications	CE
