

Q-210A-EM

3 Years Warranty

STANDALONE KEYPAD KEY CARD SYSTEM ACCESS CONTROL READER - PROXIMITY CARD SUPPORT

Stainless Steel Design

The Q210A-EM features a durable metal stainless steel push-button design, offering both robustness and a modern aesthetic. The stainless steel material ensures longevity and resistance to corrosion, making it ideal for both indoor and outdoor use.

Multiple Access Modes

Card Access: Users can gain entry by simply presenting a compatible access card.

Password Access: Entry can also be achieved using a secure password, providing an alternative method of access.

Card + Password Access: For enhanced security, the device offers a dual authentication method where both a card and a password are required to unlock the door.

User Capacity

The Q210A-EM supports up to 1000 users, making it suitable for environments with a large number of users. Additionally, it allows for 1 independent password, providing flexibility in access management.

PRODUCT DESCRIPTION

The Q210A-EM is a robust and versatile access control device designed to provide secure entry management. It supports up to 1,000 ID cards and offers multiple communication options, including RS232/485, TCP/IP, and USB-host connectivity. The device is compatible with 125KHz EM standard cards and features a Wiegand 26/34 input and output port for seamless integration with various security systems. Built to withstand challenging environments, it operates within a temperature range of -10 to 60°C and humidity levels of 10% to 90%. The device is encased in an IP66-rated enclosure, ensuring protection against dust and water, making it suitable for both indoor and outdoor installations. Its compact design (120x76x27mm) makes it easy to install in various settings.

PRODUCT ADVANTAGES

High Capacity: Supports up to 1,000 ID cards, making it ideal for small to medium-sized organizations.

Flexible Communication Options: Offers RS232/485, TCP/IP, and USB-host connectivity for easy integration with different systems.

PRODUCT ADVANTAGES

Reliable Performance: Operates efficiently in a wide range of temperatures and humidity levels, suitable for diverse environments.

Compatibility: Supports 125KHz EM standard cards and includes Wiegand 26/34 input and output, ensuring compatibility with a wide range of access control systems.

Durable Design: IP66-rated protection against dust and water makes it suitable for outdoor use.

Compact Size: Small dimensions allow for easy installation in various locations.

TECHNICAL SPECIFICATIONS

Product Parameter	Description Parameter
Model	Q210A-EM
ID Card Capacity	1000
Communication	RS232/485, TCP/IP,USB-host
Access Control Interface	Weigand 26/34 input and output port
Compatible Cards	125KHz EM standard card
Working Voltage	12 V DC/2A
Operating Temperature	-10 ~ 60 °C
Operating Humidity	10% - 90%
Frequency	Proximity Card Support
Index of Protection	IP66
Warranty	3 Years
Dimensions (W*H*D)	120x76x27mm
Country of Origin	Malaysia
Certifications	UL,CE
