

Q-211E- Bluetooth (ID)

3 Years Warranty

Standalone Bluetooth Wifi Reader with Card

PRODUCT DESCRIPTIONS

The Q-211E-Bluetooth (ID) is a versatile Bluetooth-enabled doorbell access controller designed for secure and convenient access management. It is waterproof and conforms to IP66 standards, making it suitable for outdoor installations. The controller supports EM cards and can be managed through a mobile app available on both iOS and Android platforms.

PRODUCT ADVANTAGES

- **Waterproof and Durable:** Designed to withstand harsh weather conditions with an IP66 waterproof rating, ensuring reliable performance in outdoor environments.
- **Mobile Control:** Easy user management through a dedicated app, allowing administrators to add or delete users and view account records remotely.
- **Multi-Access Options:** Offers flexibility with multiple access modes, catering to different security requirements.
- **Seamless Integration:** Supports gateway functionality for integration into broader access control systems.
- **User-Friendly Interface:** Intuitive app interface on iOS and Android makes it easy to manage access and monitor usage.
