

Q-ABS008-MF

 **Lifetime Warranty**

NFC MIFARE KEY TAG ACCESS CONTROL

PRODUCT DESCRIPTION

The Q-ABS008-MF is a high-frequency keyfob designed to operate at 13.56 MHz using Mifare 1K technology. This keyfob is ideal for secure access control and identification applications, offering both convenience and reliability. It is available in multiple color options, providing flexibility for organizational use, such as color-coding for different user groups or access levels.

PRODUCT ADVANTAGES

- **Compact Design:** Small, lightweight keyfob that can easily be attached to a keyring, making it convenient for everyday use.
- **Durable Construction:** Built with high-quality materials, ensuring long-lasting performance in various environments.
- **Color Customization:** Available in multiple colors, allowing for easy identification and color-coding for different access levels or user groups.
- **Reliable Technology:** Operates on 13.56 MHz Mifare 1K technology, providing secure and consistent performance in access control systems.

Q-ABS008-MF
