DOOR CONTACT SENSOR - NORMALLY CLOSED

(\varnothing) 10mm x 17mm

NC (Normally Closed)

ABS Plastic

Compact design

Strong Concealment

Easy Installation

PRODUCT DESCRIPTION

The Q-AS33B Magnetic Contact Sensor is a flush-mounted, cylindrical magnetic contact designed for use in security systems to monitor the status of windows and doors. With a small size and easy installation, this sensor is ideal for concealed applications. Operating on a 12V DC power source, the sensor is suitable for various installation environments, including windows and wooden doors.

PRODUCT ADVANTAGES

Compact and Concealed Design: Small size allows for discreet installation, maintaining aesthetics while providing reliable security monitoring.

Flush-Mounted Magnetic Contacts: Designed for a snug fit, ensuring secure and stable operation once installed.

Versatile Applications: Suitable for both windows and wooden doors, providing flexibility for different security setups.

Easy Installation: (\varnothing) 10mm x 17mm design simplifies the installation process with a press-to-fit method.

TECHNICAL SPECIFICATION

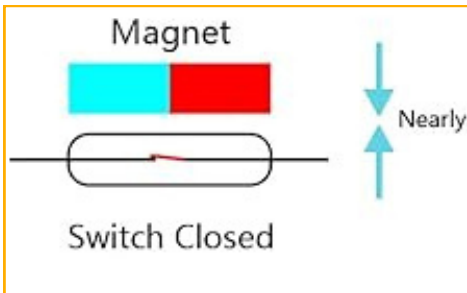

Product Parameter	Description Parameter
Model	Q-AS33B
Dimensions	(ϕ) 10mm x 17mm
Material	ABS Plastic
Switch Output	NC (Normally Closed)
Working Voltage	DC100V
Operating Distance	16mm \pm 5mm
Maximum Current	0.5 A
Maximum Contact Power	10W
Cable Length	26cm / 10.2inch
Color	White
Weight	0.015 kg
Place of Origin	Malaysia
Certifications	CE
Warranty	3 Years
