

## QUANT FACE RECOGNITION TIME ATTENDANCE FACE ID + MIFARE CARD READER ACCESS CONTROL

### PRODUCT DESCRIPTION

The Q-F11 is a high-performance facial time attendance system designed to streamline employee attendance tracking with cutting-edge biometric technology. This system supports multiple authentication methods including facial recognition, PIN, and card identification, making it a versatile solution for various organizational needs.

### PRODUCT ADVANTAGES

- **Advanced Recognition Capabilities:** Utilizes a dual-camera system for accurate and fast facial recognition under various lighting conditions, ensuring high reliability and security.
- **Comprehensive Language Support:** Capable of supporting multiple languages, making it ideal for international and multicultural workplaces.
- **High Storage Capacity:** The system can store up to 5,000 faces and 500,000 identification logs, catering to large organizations with high traffic.
- **User-Friendly Interface:** The large 4.3-inch touchscreen offers an intuitive interface for both administrators and users, simplifying operation and management.
- **Flexible Connectivity:** Supports multiple communication methods, including TCP/IP, Wi-Fi, and USB, providing versatility in installation and integration with existing systems.

## Q-F11

 **3 Years Warranty**

### TECHNICAL SPECIFICATIONS

| Product Parameter            | Description Parameter  |
|------------------------------|--|
| Model                        | Q-F11  |
| Processor                    | 0.8GHz Single-core ARM Cortex-A7   |
| NPU (Neural Processing Unit) | 0.8T   |
| Memory                       | 256MB DDR RAM, 4GB ROM (EMMC)  |
| Camera                       | Dual 2MP Cameras - 1 HD Color WDR Camera, 1 Infrared Camera                                |
| LED                          | High-brightness fill light with dual high-power infrared LEDs                              |
| Display                      | 4.3-inch Capacitive LCD Touch Screen   |
| Power Supply                 | 12V DC, 1A   |
| Operating System             | Linux  |
| User Capacity                | 5,000 faces  |
| Record Capacity              | 500,000 Identification logs  |
| Installation Compatibility   | Suitable for wall-mounted and desktop installations  |
| Authentication Methods       | Facial Recognition, PIN, Face & PIN combination, Mifare Card                               |
| Language Support             | English, Spanish, Turkish, plus 20 additional national languages with voice prompt support |
| Warranty                     | 3 Years  |
| Country of Origin            | Malaysia   |
| Certifications               | CE   |
