

Q-MF1

Lifetime Warranty

## MIFARE 1K F08 ACCESS CONTROL CARD

### PRODUCT DESCRIPTION

The Q-MF1 is a 13.56Mhz Mifare 1K F08 card, designed for use in secure access control and identification systems. Built with reliable Mifare technology, it provides enhanced data storage capacity and secure data encryption, making it ideal for high-security environments and versatile applications.

### PRODUCT ADVANTAGES

**High Security:** Mifare technology ensures encrypted data storage for secure access control.

**Versatile Use:** Suitable for various applications including access control, public transport, loyalty programs, and cashless payment systems.

**Durable Design:** Built to withstand heavy use while maintaining reliable performance.

**High Capacity:** 1K memory storage, providing ample space for user data and program information.

**Easy Integration:** Seamlessly integrates with systems that support 13.56Mhz Mifare technology.

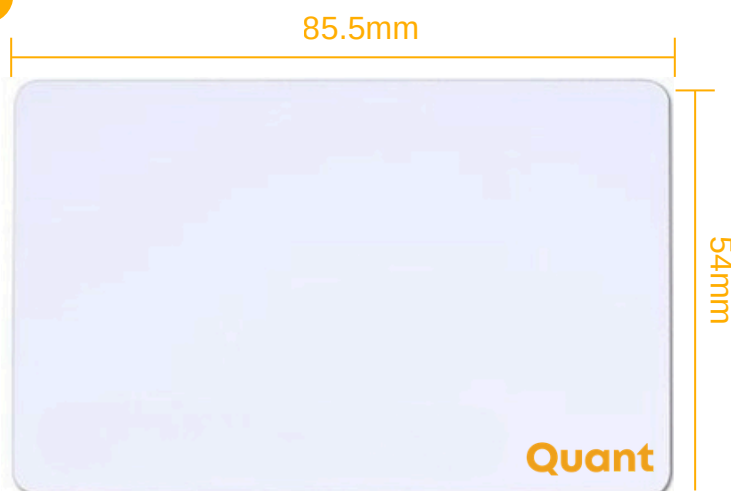

## Q-MF1

**Lifetime Warranty**

### TECHNICAL SPECIFICATIONS

Parameter	Specification
Model	Q-MF1
Frequency	13.56Mhz
Card Type	Mifare 1K F08
Memory	1K bytes (divided into 16 sectors, each with 4 blocks of 16 bytes)
Chip	F08
Surface Finish	Glossy, opaque, or frosted
Operating Distance	2-10 cm
Dimensions	85.5 x 54 x 0.86mm
Warranty	Lifetime
Country of Origin	85.5 x 54 x 0.86mm

### DIMENSIONS

### APPLICATIONS

- Access control
- Identification
- Vehicle Management
- Secure entry systems (requiring MF technology)
