

Q-UHF-P1N

 3 Years Warranty

PET+3M WATERPROOF WINDSHIELD UHF STICKER

PRODUCT DESCRIPTION

The Q-UHF-P1N is a durable, waterproof UHF sticker designed for application on vehicle windshields. Made from PET and 3M materials, this sticker is engineered to withstand environmental elements while providing reliable UHF frequency performance. It is ideal for use in vehicle identification and access control systems, offering a convenient and secure method for tracking and managing vehicles.

PRODUCT ADVANTAGES

- **Waterproof and Durable:** Constructed from high-quality PET and 3M materials, ensuring longevity and reliability in outdoor conditions.
- **Wide Frequency Range:** Operates within the 868 MHz to 915 MHz range, making it suitable for various UHF RFID applications.
- **Compact Design:** Slim dimensions allow for easy application on vehicle windshields without obstructing the driver's view.
- **Customizable:** Supports encoding and printing of numbers for unique identification and enhanced security.
- **Easy Application:** Designed for quick and secure attachment to windshields, providing a tamper-evident solution for vehicle access control.
