

Q-Y300

 3 Years Warranty

MORTISE CONCEALED ELECTRIC DROPBOLT LOCK

PRODUCT DESCRIPTION

The Q-Y300 is a mortise concealed electric dropbolt lock designed for secure door locking in access control systems. This lock is built for discreet installation within the door frame, providing a high level of security without compromising aesthetics. It features a 5-wire connection and offers a time-delay function, making it suitable for a variety of security applications.

PRODUCT ADVANTAGES

Concealed Installation: Designed for mortise installation, providing a secure and discreet locking solution that integrates seamlessly with the door frame.

Time-Delay Function: Offers adjustable time-delay options (0-3-6 seconds), enhancing security by allowing controlled access.

Low Power Consumption: Operates efficiently with a low working current of 150mA, ensuring minimal power usage while in operation.

Durable Construction: Built to withstand regular use in high-security environments, providing long-term reliability.

Versatile Application: Suitable for use in a variety of access control systems, including doors in commercial, industrial, and residential settings.

Q-Y300

 **3 Years Warranty**

TECHNICAL SPECIFICATION
