MIDDLE EAST RESETTABLE EMERGENCY BREAK GLASS EXIT RELEASE BUTTON

86mm x 86mm
x 50mm (H)

NO/NC/COM

Fireproof material
with a sandblast finish

Compact Design

Fireproof

Easy Installation

PRODUCT DESCRIPTION

The Q-K3RG is a resettable emergency exit release button designed for use in emergency exit and access control systems. This device features a DPDT (Double Pole Double Throw) call point and is constructed from fireproof material, making it a reliable and safe option for emergency situations. The button is colored green for easy identification and includes Arabic text laser-printed for enhanced accessibility. It can be easily reset after activation.

PRODUCT ADVANTAGES

Resettable Design: Allows for easy resetting after activation, making it reusable and ideal for emergency situations.

Fireproof Construction: Built with fireproof material, ensuring safety and durability in high-risk environments.

Clear Identification: Green color and Arabic text laser-printed provide clear visibility, ensuring the button is easily identifiable during emergencies.

Easy Installation: Designed for straightforward installation, compatible with various exit and emergency doors.

Reliable Performance: Equipped with a DPDT call point and supports multiple output contacts (NO/NC/COM), ensuring compatibility with various access control systems.

Q-K3RGAR
