

# Quant

ELEVATING CONNECTIVITY

## POE SWITCHES CATALOG 2026

**Quant International is a leading global provider of high-quality, innovative technology solutions, dedicated to revolutionizing the security industry.**

Established with a vision to elevate technology standards, Quant is committed to delivering products that are not only reliable but also at the forefront of technological advancements.

Headquartered in Kuala Lumpur, Malaysia, Quant International has established a strong reputation by specializing in the development and distribution of advanced security systems. Our comprehensive product portfolio includes state-of-the-art access control solutions, robust server systems, PoE switches, UPS (Uninterruptible Power Supply), and a wide range of essential accessories—each designed to integrate seamlessly into modern security infrastructures.

# Quant

ELEVATING CONNECTIVITY

## ***Our Commitment to Quality***

Quality is at the heart of everything we do at Quant. We adhere to stringent quality control processes at every stage of product development, from design to manufacturing, ensuring that every product that bears the Quant name meets the highest standards of excellence. Our commitment to quality is reflected in the trust our clients place in our products, knowing that they are backed by extensive research, rigorous testing, and a deep understanding of the industry.

## ***Innovation and Technology***

In a rapidly evolving technological landscape, staying ahead requires continuous innovation. At Quant, we invest heavily in research and development, always seeking new ways to improve our products and introduce groundbreaking solutions to the market. Our team of experts works tirelessly to anticipate industry trends and develop products that not only meet today's needs but also prepare our clients for the challenges of tomorrow.

## ***Global Presence and Support***

With a global footprint, Quant International serves clients in diverse regions, providing tailored solutions that address local market requirements. Our dedicated customer support team is available to assist with everything from system design and product selection to installation and post-sales support, ensuring a smooth and efficient experience for our clients.

## ***Our Mission***

Quant International's mission is to empower businesses with cutting-edge technology solutions that enhance security, improve operational efficiency, and protect valuable assets. We believe that by providing superior products and exceptional service, we can help our clients achieve their security goals and create safer environments for their employees, customers, and stakeholders.
